

## Executive Summary

MyB2B is a comprehensive EDI and shipping label solution designed to save you time so you can focus on growing your business. It is a turnkey solution that is simple to use, affordable, and will meet all of your customers' EDI requirements.

All EDI document types and versions with any customer anywhere in the world are supported.

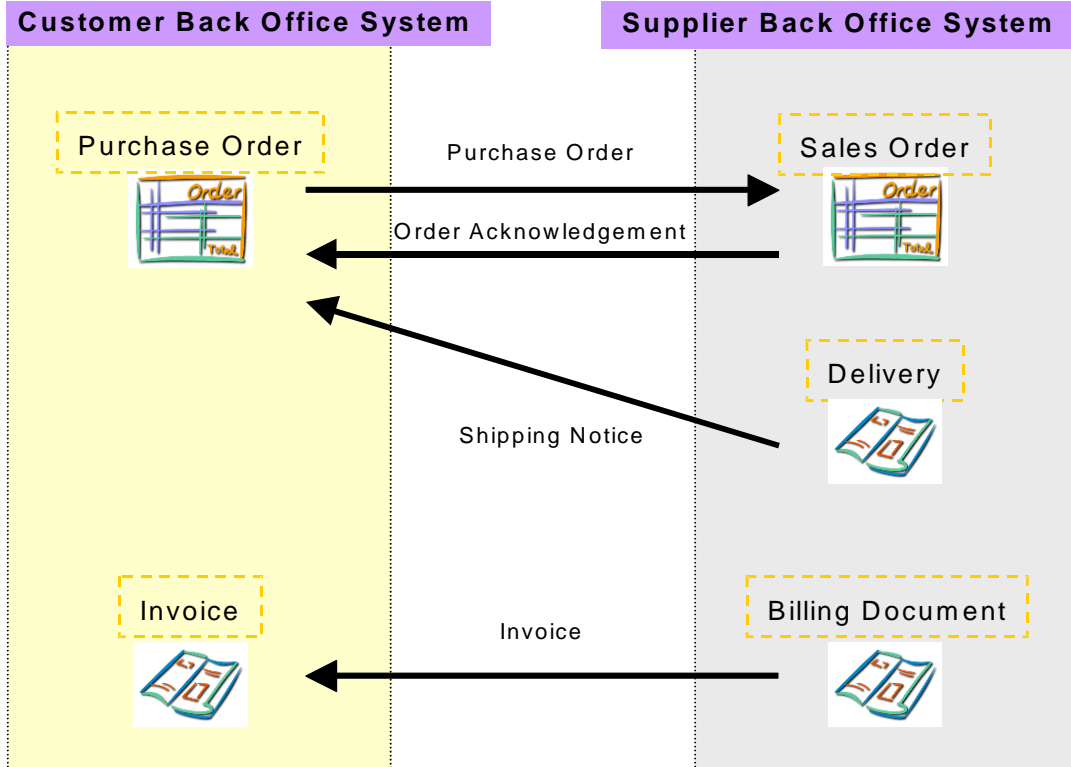

MyB2B makes 'EDI as easy as email<sup>®</sup>'. You will not have to buy any software and you will not have to do any testing. You can use any computer or mobile device with access to the internet because MyB2B is entirely web based.

You will receive EDI purchase order notifications via email and be able to send EDI documents back to your customers with easy-to-use web forms and a few clicks of your mouse.

For example, EDI invoices and advance ship notices are automatically filled in by MyB2B based on data contained in the purchase order. You review them, make changes if necessary, and send them to your customers with two clicks.

Formatted, ready-to-print GS1-128 (formerly UCC-128) barcode shipping labels are provided during the advance ship notice process.

Here is a common EDI document flow between suppliers and their customers:

### No long term contract

MyB2B is a monthly service. There is no long term contract. We know providing a great solution is the key to retaining our clients. You may stop your MyB2B service at any time and for any reason.

### Simple, easy-to-understand, and affordable fees

You have enough to worry about already. CovalentWorks is committed to keeping MyB2B simple to use and simple to pay for so that you can focus on growing your business. The only fees are a monthly fee and a one time set-up fee. See the MyB2B Price Quote for details.

## Satisfaction guaranteed

CovalentWorks has been providing excellent service since 1999 and is now trusted by thousands of small businesses and their customers.

All of our clients have month-to-month agreements because we believe business relationships are simple – if we provide fast and reliable service that saves you time, then you will stay with us for life.

We are confident MyB2B will benefit you and your business. Our service comes with a money back guarantee.
